this festschrift volume published in honor of john mylopoulos on the occasion of his retirement from the university of toronto contains 25 high quality papers written by leading scientists in the field of conceptual modeling the volume has been divided into six sections the first section focuses on the foundations of conceptual modeling and contains material on ontologies and knowledge representation the four sections on software and requirements engineering information systems information integration and web and services represent the chief current application domains of conceptual modeling finally the section on implementations concentrates on projects that build tools to support conceptual modeling with its in depth coverage of diverse topics this book could be a useful companion to a course on conceptual modeling

this book focuses on the practical needs of supervisors drawing examples from a wide range of countries and using self interrogation as a means of encouraging readers to reflect upon their practice making it an essential read for anyone involved

this book explores various individual user driven strategies that assist in solving multiple clinical system problems in healthcare using social networking to improve their healthcare outcomes provided by publisher

vols for cataloged as a serial in lc

in the violent world of radical extremists the enemy of my enemy is my friend this study reveals how that precept plays out in the unexpected bonding between militant islam and the extreme right in america and europe it provides an insightful and sane look at the possibilities for collaboration between these groups

a panoramic survey of nearly a century of russian films on wars and wartime from world war i to more recent conflicts in afghanistan and chechnya with heavy emphasis on films pertaining to world war ii

analyzes the problematic trends facing america s cities and older suburbs and challenges us to put america s urban crisis back on the national agenda

money greases the wheels of american politics from the local level to the white house in the 2004 presidential campaign president george w bush alone raised nearly 400 million in private and public funds nearly twenty times the combined total raised by john kennedy and richard nixon in 1960 to defeat challenger john f kerry further fueling anxiety over the power of money to dictate political results melvin urofsky one of our nation s most respected legal historians takes a fresh look at efforts to rein in campaign spending and counter efforts in the courts to preserve the status quo he offers a thoughtful and balanced overview of campaign finance reform and the legal responses to it from the progressive era through the supreme court s landmark ruling in mcconnell v fec 2003 and its impact on the 2004 election urofsky focuses especially on the 1971 federal election campaign act and 2002 mccain feingold or bipartisan campaign reform act bcra and on challenges to both in the supreme court in buckley v valeo 1976 the court upheld contribution limits but struck down expenditure caps on first amendment grounds in mcconnell it upheld the key provisions of mccain feingold in both cases however opponents argued that congressional control of campaign financing was an unconstitutional infringement of the free speech rights of campaign contributors urofsky deftly steers the reader through this contentious and complex history revealing how both congress and the courts have navigated uneasily between the scylla of potential corruption and the charybdis of suppressing political speech ironically despite the court s decision upholding mccain feingold the 2004 presidential election was the most expensive in history because as urofsky notes money is the mother s milk of politics and both candidates and donors will always find ways to keep it flowing his book provides an excellent and succinct guide to the controversies and historical debates emerging from that fact

offers coverage of wartime extra legal courts focusing on those periods when the constitution and civil liberties have been most severely tested by threats to national security fisher critiques tribunals called during the presidencies of washington madison jackson lincoln andrew johnson wilson franklin roosevelt and truman

offers a candid view of a war that played a significant role in the ultimate demise of the soviet union presents analysis absolutely vital to western policymakers as well as to political diplomatic and military historians and anyone interested in russian and soviet history provides insights regarding current and future russian struggles in ethnic conflicts both at and within their borders struggles that could potentially destroy the russian federation
